COMPANY PROFILE

For 35 years, the name EBS (Euchner Büro- und Schulsysteme GmbH | Educational & Business Systems) has stood for innovation, success, and creativity. We develop and manufacture tailor-made solutions for computer-based education and training. Our success is due to the high quality of our products, the extensive experience of our employees, and a continually growing number of satisfied customers worldwide.

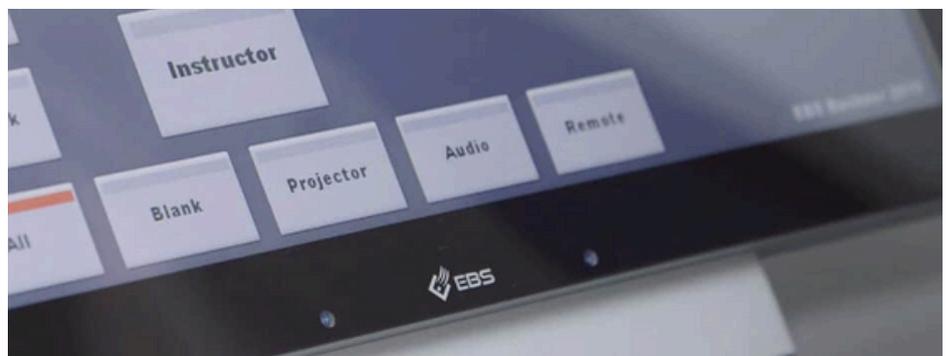

We develop and manufacture our products in Germany. A modern SMD production facility ensures our high quality and flexible production processes. Our extensive component warehouse and forward-looking production planning guarantee short delivery times, so that every product is available on short notice. Naturally, we test and certify all products before they are launched on the market. We offer a 3-year warranty on all EBS products (extended warranties are available upon request).

alphadidact® Digital

The alphadidact® Digital multimedia training system enables perfect visualization of training content. It enhances participants' attention and encourages their active engagement. An effective solution for modern training sessions and presentations.

APPLICATION AREAS

Where can alphadidact® Digital be used?

The alphadidact® Digital system is a technically independent, versatile solution, making it ideal for PC/IT training rooms, lecture halls, learning labs, and all types of skills labs.

IT / Computer Training Rooms

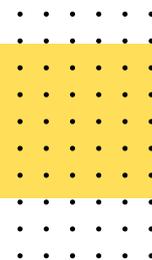

Our teacher-student systems are ideal for IT training rooms in schools, colleges, universities, and businesses. They provide an efficient way to create interactive training sessions and deliver content with precision and customization.

Medical Skills Labs

alphadidact® Digital ensures reliable, lag-free signal transmission from simulators, microscopes, intraoral cameras/scanners, laboratory, and diagnostic devices—delivering full-resolution quality.

Public Administration

In training academies for police and military, IT security and data protection are top priorities. To ensure the integrity and confidentiality of your training content and participants, we rely on completely self-sufficient systems.

Experience the benefits of alphadidact® Digital

With alphadidact® Digital, you get a stable and reliable solution for professional training sessions and presentations.

Tailored to your requirements

Our systems are precisely tailored to your needs, ensuring optimal integration and maximum efficiency.

Lag-free image transmission in 4K

Experience razor-sharp Ultra HD quality with zero lag—perfect for precise and professional presentations or training sessions.

Simple and intuitive control

The sender-receiver principle makes operation intuitive and easy to understand. Content is managed quickly and effortlessly, without the need for technical expertise.

No ongoing costs or subscriptions

With alphadidact® Digital, you save in the long run. There are no additional subscription fees or hidden costs—ensuring full cost transparency.

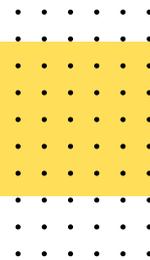

Secure and independent of your IT infrastructure

The system operates autonomously and requires no network connection, keeping your data secure and protected from external interference.

Flexible, modular, and future-proof

alphadidact® Digital adapts to your needs. With modular expansions, the system remains up-to-date in the long run.

Signal Management

Our splitters, switches, and matrix systems can be used independently or in combination with the alphadidact® Digital system. They ensure reliable signal distribution and provide the perfect foundation for flexible and efficient training environments.

Digital 4x4 Matrix

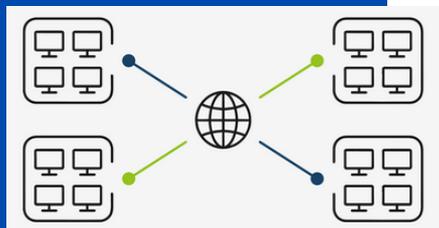

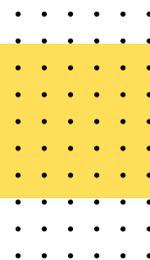

Digital 6-2 Conference Switch

Digital 2x2 Switch/Splitter

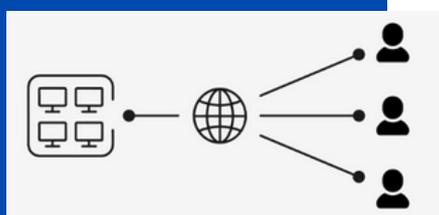

Digital 1-1 Signal Extender/Repeater

Hybrid Systems

alphaX Share and alphaX Bridge enable efficient hybrid training through seamless integration of external participants and cross-location networking of training rooms. Content such as PC screens, cameras, or microscopes is transmitted live, while control and connection are handled easily via the EBS touchscreen. Ideal for modern, flexible, and interactive learning concepts.

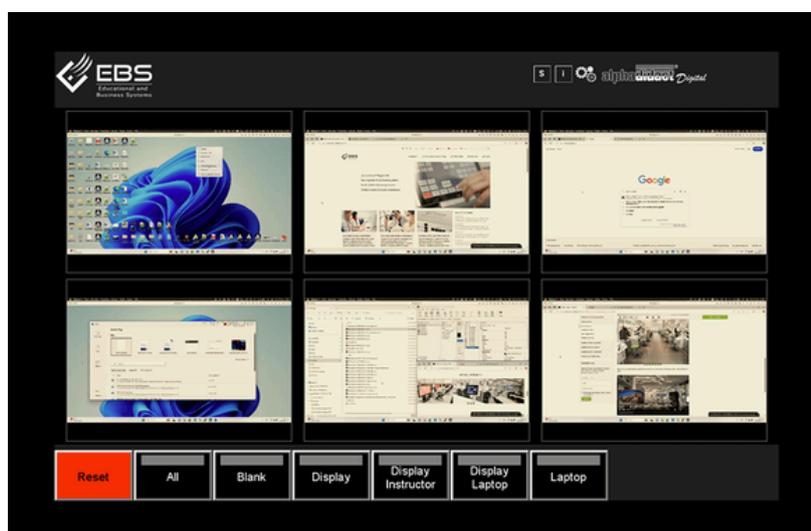

alphaX Share

Seamlessly integrate external participants into your classroom. alphaX Share transmits live signals from PC, laptop, camera, or microscope – including both video and audio – to remote participants. Perfect for hybrid learning with intuitive operation and no additional software required.

alphaX Vision

alphaX Vision allows the simultaneous display of up to 16 student screens on a central display. Instructors can view student content at any time via touchscreen and switch flexibly to other displays or projectors. The solution integrates into existing systems and ensures efficient classroom management.

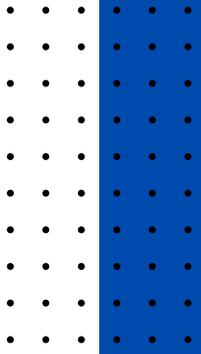

TRAINING FOR TOMORROW

Introducing Uneek Educational Solutions

We're Uneek ES, and we can't wait to start working together. Your vision is important to us. We're eager to map out the needs of your school, your educators and your students. STEM curriculum is our specialty, so let us help you find the right solutions for tomorrow.

WHAT WE DO

- We are your partner in selecting the right educational programs for your technical focus
- Keep you up to date on new technologies and courses
- Utilize our network of contacts to find a provider that fits your needs

The logo for 'uneek' features the word 'uneek' in a lowercase, sans-serif font. The letters are white and are set against a yellow rectangular background. This yellow background is partially overlapped by a darker orange rectangular shape on its top and left sides. Below the yellow box, the words 'EDUCATIONAL SOLUTIONS' are written in a smaller, uppercase, sans-serif font, also in white.
